

On this International Women's Day in 2024, let us celebrate the power of women and their invaluable contributions to society. Through investing in their potential and accelerating progress, we can cultivate a world where inclusivity reigns, and women's empowerment serves as a cornerstone for positive change and innovation.

Together, let's champion equality and create a future where every woman's potential is nurtured and valued.

Happy international Women's Day.

- Hon. Regina Esparon, Chairperson of the Women's Parliamentary Caucus
