SRC	Seychelles Revenue Commission

Foreword

On behalf of the National Tender Board, I am pleased to present the 16th Annual Report for the financial year 2023. In accordance with Section 31 of the Public Procurement Act, 2008, this report will be submitted to the Minister of Finance and subsequently laid before the National Assembly.

The report provides a comprehensive overview of the Board's activities and includes the audited financial statements for 2024. It also presents detailed analyses of statistical performance data, covering projects submitted to the Board, contracts awarded, and their respective values.

As the Approvals Authority for procurement thresholds defined in the Regulations, the Board's work during 2024 reflects its mandate under the Public Procurement Act. In fulfilling this role, the Board has remained committed to ensuring that bidding methods and key factors influencing tender awards are consistent with the principles of transparency, competition, and accountability. These principles are essential to safeguarding public funds, promoting fairness, and strengthening public confidence in the procurement system.

I wish to extend my sincere appreciation to the members of the Board for their dedication and stewardship, and to the Chief Executive Officer and staff of the National Tender Board for their commendable performance throughout 2024. I also acknowledge the valuable contribution of the Procurement Oversight Unit in raising procurement standards.

Looking ahead, the Board remains focused on upholding integrity and advancing best practices to ensure that the public procurement system continues to serve the people of Seychelles with fairness, efficiency, and trust.

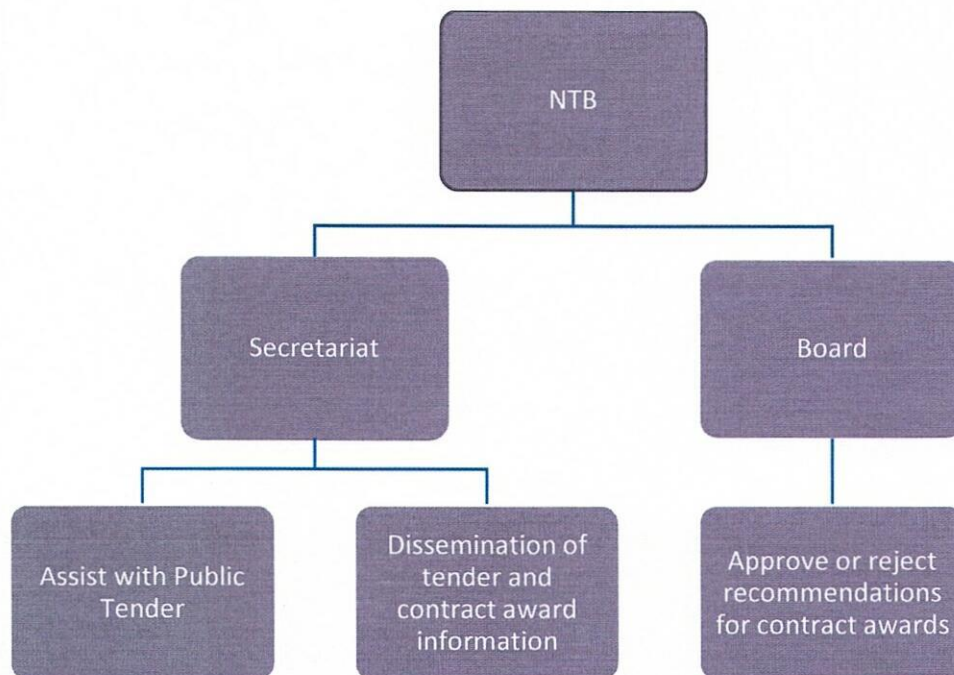

CHAIRMAN

Introduction

The National Tender Board publishes its sixteenth Annual Report for the fiscal year ending 2024. The National Tender Board was established under the Public Procurement Act of 2008 as an approval authority for the upper threshold of government tenders within Seychelles' Procurement System (i.e., SR 850,000 for Goods, Works, and Non-Consultancy Services and SR 250,000 for Consultancy Services).

The Board's objective is to promote the values of honesty, fair competition, and good governance within the public procurement system. The Board's goal is to achieve the highest level of transparency and equity in the performance of its functions, while also considering equal opportunities for all bidders, the need to obtain the best value for money in terms of price, quality, and delivery, and the transparency of the procurement process and decisions.

Role of the National Tender Board

Part 1 -The Board and the Structure of the Board

The National Tender Board's primary purpose is to assess the recommendations of the Bid Evaluation Committees constituted for various procurements and projects within the Procuring Entities.

After reviewing the recommendations in the Evaluation report the Board has the authority to approve, reject, or seek additional independent evaluations of the bids and the selection of the best evaluated bidders to be done.

Part III, Section 14 (1) of the Public Procurement Act gives the President of the Republic of Seychelles, the power to choose the members of the Board. The Board is given a three-year term. The following Board members were appointed to serve from November 2021 to October 2024, the members terms were extended from November 2024 to December 2024, so that a new mandate can take effect from January 2025. Half of the Board members were reappointed from the previous term to keep things running smoothly and keep the institution's memory alive.

Powers of the Board

To assist the Board in performing its mandate of assessing the recommendations of bid evaluation committees, the Act grants the Board the following powers:

- Request and evaluate necessary information and documents from public bodies
- Summon witnesses or representatives to provide necessary information
- Conduct relevant studies before awarding a major contract
- Seek professional or technical support from local or international sources

The Board Meetings and Commitments

In order to deliver on its functions, the Board held 50 board meetings for the year 2024. The Board promotes the adoption of the competitive process for all procurements and the decision to the award contract is based on the criteria that are clearly set out in the original tender document.

In the event that the most competitive procurement method (open tender method) cannot be used in view of circumstances and nature of the procurement, the Board verifies that the Procuring Entity provides strong justifications for the adoption of a less competitive method such as direct bidding and limited bidding.

Overall Overview of the Procurement System

The Public Procurement Act 2008, makes provision for four separate institutional structures that are involved in public procurement which is described below:

1. Procuring Entities (i.e., Ministries, Departments and Agencies) - The main function is mainly to identify the needs of goods and services and deciding the most appropriate procurement method to be adopted. Three primary methods are provided by the Procurement Act namely: direct bidding, limited bidding and open bidding. An evaluation committee is then set up by the Procuring Entity to conduct a technical and financial analysis and prepare the Evaluation Report to be presented before the approval authority.

2. The National Tender Board and the Procurement Committees are the Approvals authorities that have the function to review the Evaluation Report and either approve or reject the recommendations for award.
3. Procurement Oversight Unit (i.e., POU) – The primary mission of POU is to oversee the public procurement process and ensure its compliance to the Public Procurement Act, as well as implement policies to regulate activities across the public sector.
4. The Independent Review Panel – The panel has the authority to conduct investigations and consider complaints and appeals filed by dissatisfied bidders.

Projects Before the Board

As mandated under Section 15 of the Act, the recommendations of the Evaluation Reports presented to the Board for award of contracts were either approved, deferred or rejected. In 2024, the Board considered 156 more requests than 2023. A total of **879** requests were considered in 2024 in comparison to 723 in 2023.

Of the total cases reviewed by the Board, **644** requests were approved, **175** cases were deferred, **38** were annulled and **17** were rejected and **4** contracts were terminated.

The National Tender Board closed the year having approved 644 requests of which: **305** was Open Tender, **91** under Limited Bidding and **248** under Direct Bidding.

Table 1. shows the improvement that the Board has made over the three years in the number of requests that it has handled. However, there has been a decrease in the number of open tenders that has been approved whereas the number of direct biddings approved has increased from 73 to 248. The Board saw an increase in the number of direct bidding cases received from PEs as well as new PEs requesting approval for their projects. Whereas on the other hand Open Tender has decreased by 17 per cent.

Table 1: Table of Requests before the Board

	2024	2023	2022
Total Project Request	879	723	594
Total Approved Request	644	523	397
• <i>Total Approved Request under Open tender Bidding</i>	<i>305</i>	<i>369</i>	<i>211</i>
• <i>Total Approved Request under Limited Bidding</i>	<i>91</i>	<i>81</i>	<i>101</i>
• <i>Total Approved Request under Direct Bidding</i>	<i>248</i>	<i>73</i>	<i>85</i>
Total Deferred Request	175	147	150
Annulments / Re-tender	38	29	27
Total Rejected Request	17	20	18
Total Termination	4	4	2

There was a total of four terminations for the year and there was no change from the 2023 figure. The table below shows the details of the four projects as well as the reasons for the termination.

Table 2. Table of Terminates Contracts

DATE	PROJECT TITLE	PE	CONTRACTORS	REASON
1. 16/04/2024	Construction of Motorable Access Adela Road-Pointe Larue	SIA	H & R New Design and Build	Contractor has failed to perform as per the conditions of the signed contract and the project is not yet implemented.
2. 16/07/2024	Road Reinstatement at Le Nirole	SLTA	Fabsco Construction	contractor has expressed its willing to terminate the contract, as they facing difficulties in obtaining prime materials
3. 23/07/2024	Construction of Recreational Facility at Perseverance 2 – (Pers 02-01-22)	LOG	Tyolo Roadworks Solution	retender given the numerous changes being proposed in the design of the project and scope of works
4. 12/11/2024	Provision of Cleaning & Maintenance Services Lot 20 Category 4 Landscape & Beautification	CPU	ABS Cleaning Agency	failed to perform as per the conditions of the signed contract.

Value of Contracts Awarded

A total of SR 1.4 billion was awarded by the National Tender Board for the year 2024 for Budget Dependent Entities. This was an increase of SR 147.8 million over the year 2023.

The distribution of total contracts awarded by values for 2024 compared to 2023 and 2022 for Budget Dependent Entities and Non-Budget Dependent Entities is shown in the Table 3 and 4 respectively.

Table 4. Distribution of total contract awards by values for 2024 for non-Budget dependent public Bodies.

PE	2024	2023	2022
DBS		2,128,344.00	200,000.00
FSA	14,027,075.84	14,401,714.38	2,459,845.39
SCAA	60,971,098.18	47,898,378.05	40,370,303.43
SPA	94,553,827.97	15,391,249.18	118,930,861.69
SPTC	8,436,148.09	4,079,261.64	18,951,333.62
TOTAL	177,988,150.08	83,900,970.25	180,912,344.13

The same trend observed with the budget dependent entities is seen in the non-budget dependent entities, both groups saw an increase in the values of contracts approved for the year. The amount of contracts approved by the Board in 2024 amounted to SR 178 million in Non-Budget Dependent Entities. This is an increase of SR 94 million when compared to the 2023 figures.

Graph 1 is showing the Procuring Entities with the most contracts approved by the Board. As can be seen from the graph Seychelles Infrastructure Agency and the Public Utilities Corporation is well above the others.

Graph 1.

Part 2 - Secretariat Operations

The Secretariat of the Board comprises of five staff as follows:

- Chief Executive Officer
- Principal Procurement Analyst
- Procurement Analyst
- Assistant Administrative Officer
- Housekeeper

The secretariat is responsible for the following:

- Ensuring the effective management of the day to day affairs of the organization.
- Planning and organizing the NTB's activities in preparation for weekly board meetings. The secretariat also vets the Evaluation being submitted for consideration
- Overseeing the NTB's budget
- Conducts and supervise the public tender openings
- Ensure compliance with established internal procedures for the operation of the Board
- Ensure the compliance with the Public Procurement Act

Budget

The National Tender Board is a Budget dependent organization and processes all its financial transactions through the Treasury Single Account system. For the year 2024, a budget of SR 4.5 million was appropriated. The Board closed the year with an actual of SR 4.5 million. Detail of the certified account together with the Auditor General certificate as at December 2024 can be found in Appendix 1.

Tender Opening Procedures

Statistics Relating to Bid Opening

The statistical information about bid opening, which is handled by the Board secretariat on behalf of procuring bodies, is compiled in this portion of the annual report.

(a) General

For the period of January 2024 to December 2024. Total bids opened by the National Tender Board summed up to 2291 from 413 procurement proceedings. This is an increase of 10 per cent when compared to the 2023 figure of 2075 bids opened.

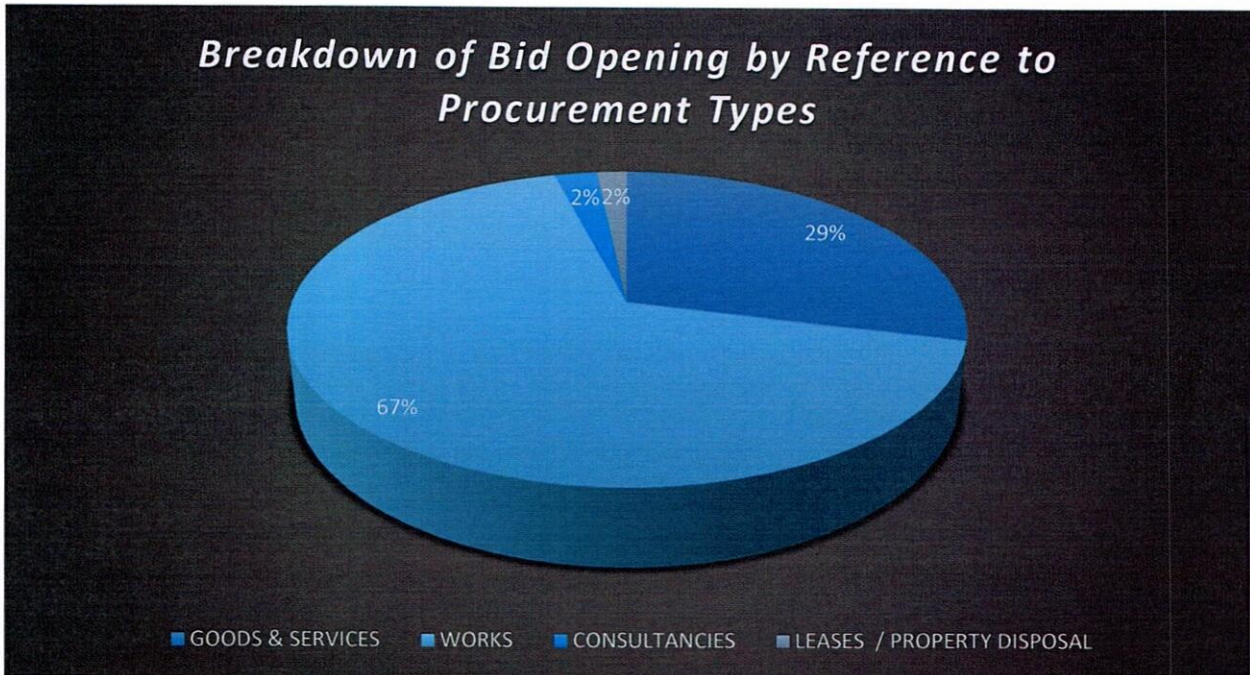

(b) Tender Opening Procedures

Tenders are always opened in front of the National Tender Board officials, representatives of the Procuring Entities, and bidders or their agents immediately after the deadline of the tender. Bids that are submitted after the deadline are not accepted and are sent back to the bidder unopened. Minutes of the tender opening session are always recorded and in order to promote the transparency principle in the tender process, copy of the minutes of tender openings are posted on the NTB website. Bidders who want a personal copy can pick it up at the NTB office or have it emailed to them.

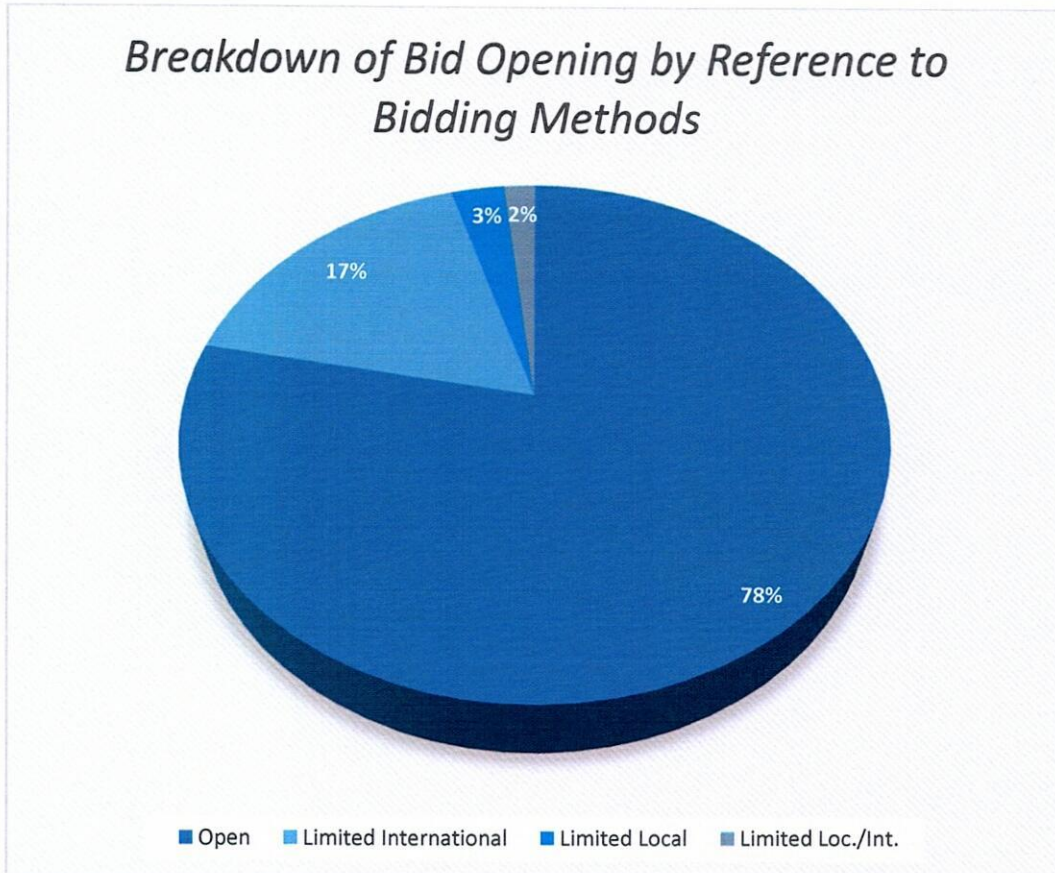

Table 5. The statistics of bids open broken down by each procuring Entity.

<i>PC CON</i>	<i>Procurement Committee for Consultancy</i>	<i>PC PUC Procurement Committee for PUC</i>
<i>PC SCAA</i>	<i>Procurement Committee for SCAA</i>	<i>PC FSA Procurement Committee for FSA</i>

General Challenges and Concerns

The various challenges and concerns encountered by the Board are outlined below:

- The figures shows that the preference of Procuring Entities opting for the less competitive method such as direct bidding and limited bidding continues to be of great concern. In 2024, there was a significant increase in the number direct bidding while open tender decreased.
- Different MDAs apply different disqualification procedures in the Bid Evaluation Report, which emphasizes the necessity for appropriate guidelines to differentiate between material and non-material deviations from the tender documents.
- Before or during the project's execution, the Procuring Entities frequently fail to get consent for extra or unexpected work. According to the Procurement Act's stipulations, approvals cannot be given retrospectively.

- The Board is still concerned about tax issues. Bidders are frequently disqualified for failing to submit their tax clearance, and some of these bidders have submitted the lowest amount. As a result, they are disqualified and a higher-ranked bidder is awarded the contract, which isn't always cost-effective for the government.
- Clear guidelines for the application of VAT on the tender amount are required. In certain situations, the amount tendered includes VAT; in other situations, it does not. Addressing these discrepancies is necessary.

CONCLUSION

In light of the observations stated, the following is proposed:

- In order to empower procurement officers to manage the procurement process, it is still crucial to prioritize their capacity building.
- It is necessary to raise awareness and educate all parties involved—including private sector suppliers and contractors—about the particular requirements of the Public Procurement Act concerning tender procedures.
- In order to implement suitable and competitive tender methods rather than the direct bidding, the Ministries and Departments must undertake greater procurement planning at the ministerial level.
- In accordance with Sections 94 and 95 of the Procurement Act, the procuring entities should take proactive measures to debar persistently underperforming contractors.
- To make it easier for MDAs to apply, the regulatory body must publish standard tender documents as well as regulations and directives pertaining to the issues governing tender operations.

Part 3 – Statistics of Contract Awards per Category

The top ten civil works contractors accounted for SR 499 million of the total value of contract awarded and the top ten suppliers of Goods and Services accounted for 228 million of the total value of contracts approved by the Board in 2024.

The list below shows the top ten contractors along with details of the projects approved.

Website: www.oag.sc Facebook: OAG Seychelles

Please address all correspondence to the Auditor General

National Tender Board for the year ended 31 December 2024

Scope

I have examined the cash receipts and payments of the National Tender Board for the year ended 31 December 2024 in terms of Section 30 (2) of Part 111 of the public procurement Act, 2008.

The Board is responsible for keeping proper books of accounts, preparation of the statement of expenditure and the information they contain. It is my responsibility to form an independent opinion, based on my audit, on those statements and to report it to Board.

The audit was conducted in accordance with the International Organisation of the Supreme Audit Institutions (INTOSAI) auditing standards. Audit procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the statement of expenditure.

The audit was planned and conducted so as to obtain all information and explanations considered necessary to provide me with sufficient evidence to give a reasonable assurance that the statement of accounts is free from material misstatement, whether caused by fraud or other irregularity or error. The overall adequacy of the presentation of information in the statement of accounts was also evaluated in forming my opinion.

The audit opinion expressed has been formed on the above basis.

Opinion

In my opinion, the statement of cash receipts and payments properly presents the recurrent expenditure of the National Tender Board for the year ended 31 December 2024.

Gamini Herath
Auditor General

Victoria, Seychelles
28 October 2025

National Tender Board

Notes to the Statement of Cash Receipts and Payments.

1. Accounting Policies

Basis of preparation

The Statement of Cash Receipts and Payments has been prepared in accordance with Cash Basis IPSAS 'Financial Reporting under the Cash Basis of Accounting'.

The accounting policies have been applied consistently throughout the period.

Reporting Entity

The Statement of Cash Receipts and Payments is for the year ended 31st December 2024 for the National Tender Board referred to as a public body, in PFMA, 2012.

The National Tender Board's principal activity is to provide services in terms of contract award for public procurement activities.

The National Tender Board does not operate its own bank account. The Government operates a centralised Treasury function which administers cash expenditure incurred by all MDA's during the financial year. Payments made on this account in respect of National Tender Board are disclosed in the actual column in the Statement of Cash Receipts and Payments.

The National Tender Board was established under the Public Procurement Act 2008 and is mandated to review the recommendations of a bid evaluation committee (within the Procuring Entity) and approve or reject the award of contract for procurement within the higher thresholds (i.e above SR 850,000). On specific grounds, the Board may require the evaluation committee to make a fresh or further evaluation or seek an independent evaluation.

The Board's role and objective is to ensure that a fair and competitive process has been conducted for any bid and that in the event whereby this was not possible, justifications for adoptions of other procurement methods are given. At all cost, the Board also ensures that the decision for the award of contract is based on objective criteria clearly stated to tenderers in the original procurement documentation.

NTB's Guiding Principles & Objectives

The guiding principles of the National Tender Board (NTB) are:

- i. **Transparency:** NTB will be guided by the highest standards of professional ethics. All members of the public need to have access to the tendering process.
- ii. **Economy and value for money:** The NTB will ensure that there is efficient and optimal use of public funds. This will be done by implementing policies based and guided by both quantitative and qualitative criteria to best guarantee value for money at minimum cost.

iii. **Equality of opportunities for all and fairness of treatment to all parties:** Consideration of equal opportunity for all is an aspect of good governance. NTB will ensure that all prospective tenderers have an equal opportunity to bid for the supply of goods and services.

Reporting currency

The reporting currency is Seychelles rupees (SR)

2. Appropriation

Amounts appropriated to the **National Tender Board** are managed through a central account administered by the office of the Treasury. These amounts are not controlled by the **National Tender Board** but are deployed to the **National Tender Board** on behalf of the central account administrator on presentation of appropriate documentation and reported as estimates in the Statement of Cash Receipts and Payments. The amount the Treasury has expended for the benefit of the **National Tender Board** (the amount 'draw down') is shown as payments.

3. Other receipts

At present, the Board does not have any funds collected and deposited into the Consolidated Fund during the financial year.

4. Fixed Assets

The details of fixed assets are recorded in registers as required by PFM Act/Regulations and Accounting Manual, and are under the control of the Board.

5. Variations between the budget and actual

There were no major variations between the budget and actual during the year 2024.

Notes to the Statement of Cash Receipts and Payments.

The above account is maintained with the approval of and subject to the conditions of operation stipulated by the Principal Secretary of Finance. Payments out of the account are authorised by the Chief Executive Officer of the Board. The National Tender Board keeps accounts and records for the processing of transactions relating to payments. Adequate control is maintained over the collection of receipts and payments out of the account, and to ensure that the account holds a positive balance at all times. The account is reconciled with the Treasury ledger on a monthly basis.
